

# 1. Proxmox Install

1. Download `proxmox iso installer`
2. Download Etcher
3. Burn the iso file using Etcher to your USB drive
4. Boot your server with usb

## Points

1. While installing proxmox using usb-boot, it will ask for email and password, this will be used to login to webUI

## Additional Settings

1. If using laptop as a server and to prevent proxmox to sleep when lid is close
  - a. Datacenter > Node > Left Click > Shell > `nano /etc/systemd/logind.conf` >
    - i. Uncomment `HandleLidSwitch=...` and make it `HandleLidSwitch=ignore`
    - ii. Uncomment `HandleLidSwitchDocked` and make it `HandleLidSwitchDocked=ignore`
    - iii. Ctrl+S Ctrl+X
