

5. Uptime Manager (UptimeKuma)

We will host this on a Docker Container in an Ubuntu Server / Debian 11 CT Template of 1 Core and 2GB Ram

Resource

Meet Uptime Kuma, a Fancy Open Source Uptime Monitor for all your HomeLab Monitoring Needs

You've spun up lots of self-hosted services in your HomeLab but you haven't set up monitoring and alerting yet. We'll be glad you waited because today we'll set up Uptime Kuma to do just that. Uptime Kuma is a self-hosted, open source, fancy uptime monitoring and alerting system. It can monitor HTTP, HTTP with keyword, TCP, Ping, and even DNS systems!
